EXAMINER'S COMMENT

This Office Action is responsive to the applicants' amendment filed on August 20, 2004.

Claims 1 and 6 have been amended. Overall, claims 1-6 are pending in this application.

Applicants' cooperation in correcting the informalities in the drawing and specification are appreciated. All of the objections to the specification as failing to provide proper antecedent basis for the claimed subject matter have been overcome.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior art fails to disclose or render obvious the claimed combination including: an end member at one end of the housing which defines an inlet port and an outlet port; an intermediated adapter member is positioned between the end member and the housing and secured to the housing with the end member; the end member being one of a first type wherein the ports define a tube-type connection and a second type wherein the ports define a threaded type connection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art

The IDS (PTO-1449) filed on August 20, 2004 has been considered. An initialized copy is attached hereto.
